

USAGE AND MAINTENANCE INSTRUCTIONS

Coir mats application preferably in sheltered entryways
prevent continuous contact with water
when wet, allow drying time
to clean, just shake or vacuum-clean

Rubber mats application indoor and outdoor
to clean, just shake, vacuum-clean
and/or water-wash with mild detergent

NOTES TO OUR COIR MATS

Natural coir mats/rolls which are non-printed/non-bleached, may show minimal effects of striping.

Coir matting on rolls is available as non-printed only.
The roll lengths may vary between 10-12 meters.

Depending on the design and the position/application of the coir mat, printed colouration may be subject to slight fading overtime.

During initial weeks of usage, light shedding of loose coir fibres is possible.
